

## Some good reasons for making a regular donation

- Your regular donation **saves administrative costs**. This makes more money available for endangered wildlife. You also save yourself a trip to the bank.
- Your regular donation permits us to conduct **better, forward-looking project planning**. In this way, we can better calculate in advance our commitment to endangered wildlife.
- This enables the Stiftung Pro Artenvielfalt (Foundation Pro Biodiversity) to support **new and acute projects** for better conservation of endangered wildlife, especially migratory birds. Your regular donation helps us and **gives us security**.
- If you so wish, your regular donation can be cancelled at any time, in writing or by telephone. You run **no financial risk** by supporting us permanently.
